**SEAL'S ROYAL ROBINHOOD x**—In this bull you have the highest requirements of the beef industry today: size, smoothness and muscling. He will weigh around 1600 pounds. This bull is a half-brother to the triple crown winner of the 1970-71 show season Kenmar Ransom 32Z "TANK." During the 1970 season he was unbeaten as a junior calf, was calf champion at four strong shows including the Tennessee Valley Agricultural and Industrial Fair, and Reserve Grand Champion at the Appalachian District Fair. He was Grand Champion at the Appalachian District and Tennessee-Carolina Fairs in 1971 and first in his class at three shows. During the current show season he was unbeaten in his class, and Grand Champion at the Tennessee-Carolina Fair. This bull has been putting good size into the calves we have from him. Four out of the six calves he has sired are Polled. He should make a good sire either for a purebred or commercial herd.

**BULL WEIGHING**

You will want to be in attendance Friday, November 10, at 3:30 p.m., for the bull weighing. This program was instituted recently and proved to be very popular with both consignors and buyers. Each bull in the sale is weighed. The average weight for each class is announced in the show on Saturday and the weights are available to buyers on request.

**NOBLE CAROLENE x** — A full sister to the popular Noble Viking Control x that was sold in last years' Tennessee National sale. She is by Four Dees Viking x, the 100% dehorning son of the great producing Four Dees Command 50th x, and from a great Coronita cow family. No one knows how hard it is to part with this fine heifer, but we are fortunate to have two Coronita females already in our herd. You may never get an opportunity to purchase another one, so consider her a sale attraction. Carolene is open now but may be bred to Kin-naber Leader 9th x (Big Gene) by sale day. CHV.

# STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
